

The (production) logistics cluster

THE SWEDISH

**Manufacturing
R&D Clusters**

Manufacturing clustre for Logistics

Active Cluster members:

Lena Palm

AB Volvo

Martin Kurdve, Peter Bökmark

RISE

Magnus Tengström

Volvo Cars

Ravi Kalaiarasan

Scania

Jannike Baalsrud Hauge, Magnus Wiktorsson KTH

Mats Johansson, Robin Hanson

Chalmers

Johan Tjernell

EQ-Pack

Nikolai Kolderup-Finstad

Schenker Logistics

Prioritised research areas within production logistics and supplychain:

Efficient and sustainable material flows

Material handling and packaging

Material- and production planning and control

Circular production systems
Resilient and distortion – material shortage
Supplychain 4.0

THE SWEDISH
**Manufacturing
R&D Clusters**

Schedule for the afternoon

	Resilient flexible circular flows Logistic cluster, Martin Kurdve RISE
13.20	Circularity as a resilient solution to supply chain disruptions
	Niclas Olsson CEO, TSS AB
13.50	Design of AGV deliveries: More AGVs or longer wagon trains
	Nils Thylén, Chalmers & Lennart Lundgren, Scania
14.20	The logistics lab KTH – Go and see
	Jannicke Baalsruud and Masoud Zafarzadeh
