A Unique offer

A photograph of an exhibition booth for 'INDEX MS'. The booth features a large digital display showing a leaderboard for a VR game. The display includes a 'RESTART' button and a score of 2300. The leaderboard lists names and scores for 10 players.

Leaderboard		SCORE
RESTART		2300
1	daniel	23000
2	Andreas	22800
3	andreas	22600
4	andreas	22400
5	herman	22200
6	William	22000
7	knut	21800
8	Elton	21600
9	sebastian	21400
10	Hugo	21200

Some of our customers

A sustainable Swedish metal industry

The manufacturing should have as little environmental impact as possible, and the products should have a long lifespan.

We eliminate energy wasters

- Hunting leaking compressed air with a laser gun
- A lot of money saved by stopping unnecessary energy leaks or waste
- Employee engagement in finding energy wasters

Proof of our sustainability efforts

In 2025, we were once again awarded EcoVadis Gold, which means we continue to rank among the top 5% of companies worldwide.

In 2025, we received a C79 rating in SAQ 5.0, compared to the industry average of C61.

”

A necessary investment for the future

We have allocated 24 million SEK to future-proof our operations through innovation projects.

Economic progress 2008–2024

TURNING FOR FUTURE

OUR VISION

With the personal commitment of a family-owned business and the high level of competence among our employees, Gnosjö Automatsvarvning will never stand still. Through top-level perfection and precision in machining, we are committed to continuously developing our offering, our people, and our customers.

Challenge me!
