## Graduate Course "Get your paper published"

*This very popular hands-on academic publication course guides participants through the journal writing and publication process with their own contribution. Back for the ninth time in 2024!*

### Target group

**Junior academic researchers (PhD students) with the ambition to publish in major academic journals**, to support doctoral studies in the production, innovation and/or industrial engineering and management areas, and, also possible for

**Senior researchers** with publishing experience and who intend to get their articles published in higher ranked academic journals in these areas.

### Context

The course is part of the Graduate School of [Produktion2030](#), a Swedish strategic innovation program. It is also offered within [ScAIEM](#), the Scandinavian Academy of Industrial Engineering and Management.

### Content

The course will have three meetings of two days each, and builds on participants' own reading/writing assignments in-between the meetings. The meetings are a mix of face to face and virtual meetings.

### Schedule 2024 (preliminary)

#### **15-16 January 2024, Place: Royal Institute of Technology (KTH)**

Contents: Course Introduction, Academic Paper Design and Introduction section.

Hosts: Professor Matti Kauilo, KTH, Anna Öhrwall Rönnbäck, Luleå University of Technology (IEM field and product/production innovation research).

#### **13-14 May 2024, Place: online**

Contents: Continued writing process, theoretical and empirical sections.

#### **28-29 August 2023, Place: online**

Contents: Continued writing process, the Conclusion section and Article Readability.

### Credits, language and number of participants

7,5 credits. The course is given in English. *Limited number of participants (14 and 2 reserves).*

### Examination

**Examination format:** Active participation at seminars and fulfillment of duties in between the seminars. The course is passed if the participant by the end of the course has completed a paper ready for submission to an academic journal. However, examination is on the process of writing an academic publication for journal publication and not on the paper itself.

**PRODUKTION2030** – ett strategiskt innovationsprogram med stöd från VINNOVA, Energimyndigheten och Formas.

*SCAIEM and Produktion2030*  
*2023-11-24*

**Grading scale:** Pass/Fail.

### **Learning objectives**

At the end of the series of workshops the participant:

- (1) has developed a thorough understanding of the structure of academic papers,
- (2) has trained skills in writing papers for major academic journals,
- (3) has acquired skills to review academic papers, and
- (4) has completed a paper ready for submission to an academic journal.

However, it should be noted that the course learning objectives address *the process* of publishing an academic paper. The paper writing as such is not included in the course credits. The paper writing of an own publication lies outside the course credits and serves as learning materials and an hands-on learning experience during the course.

### **Requirements**

To qualify for the course, the following criteria apply:

- The participant has finished a part of research studies about which a full paper can be written (for PhD students: this is to be decided with their supervisor).
- Before each workshop the participant completes assignments about preparing and/or writing sections of the paper, and peer reviewing another participant's paper.

### **Trainer**

Dr. [Eelko Huizingh](#) has been active in academic publishing for over 40 years. He is a prolific author with over 450 publications, including various papers in top level academic journals, and editor of 30+ Special Issues of academic journals. More than 10 of his articles have been cited each 100+ times (Google Scholar). Some of them have even 1,000-2,000 citations (Google Scholar). He is founder and CEO of Huizingh Academic Development, which offers academic writing and academic research workshops, and academic coaching sessions. Dr. Huizingh is affiliated with the University of Groningen (the Netherlands), and is Vice President Scientific Affairs of ISPIM (the International Society for Professional Innovation Management). His ISPIM duties include Head of the Scientific Panel for reviewing conference submissions, and Head of the ISPIM- Innovation Management Dissertation Award Panel. Over the past decades, Dr. Huizingh has given over 150 workshops and seminars on academic writing in more than 25 countries. These events were attended by over 2,500 participants.

### **Registration**

Registration, **Jan 10, 2024, at the latest**, at:

<https://kunskapsformedlingen.se/en/courses/pm9-get-your-paper-published-09/>

Note: first come, first served, max 14 participants, but 2 extra can be accepted. Supervisor confirmation required. PhD candidates close to finalizing their PhD studies have priority. If less than 14 participants the course may be postponed.

**PRODUKTION2030** – ett strategiskt innovationsprogram med stöd från VINNOVA, Energimyndigheten och Formas.

### **Questions and further information contact**

For further information and questions: email to Prof Anna Öhrwall Rönnbäck, LTU: [anna.ohrwall.ronnback@ltu.se](mailto:anna.ohrwall.ronnback@ltu.se) or Prof Kristina Säfstén, JU: [kristina.safsten@ju.se](mailto:kristina.safsten@ju.se), Prof Matti Kaulio, KTH: [matti.kaulio@indek.kth.se](mailto:matti.kaulio@indek.kth.se). Please use the subject "Produktion2030 and SCAIEM: PhD Course Get Your Paper Published".

### **Fee**

The course fee is **SEK12 500** (excl VAT) per participant. Literature and case materials are included. Refreshments (coffee, tea) are included. Travel expenses are not included (paid by each participant). The course is included in the Produktion2030 program. It is therefore free of charge for PhD students in the Graduate School Produktion2030, if passed. Otherwise the fee, SEK 12 500, is charged to the participant's home institution (for course drop-out or non-pass).
