Advanced Digitalisation

Nils Hertzberg

The program's overall goals

1

Contribute to the next generation of advanced, powerful and secure digital solutions – developed in Sweden.

2

Ensure increased competitiveness the industry operating in Sweden.

3

Strengthen the appeal of investment in research and innovation in Sweden.

4

Contribute to the competence in and ability to implement advanced digitalisation in Swedish industry.

5

Contribute to the digital transformation of the society, sustainable development and the achievement of the Swedish environmental goals.

6

Form a platform for collaboration and function as a knowledge hub.

Total number of approved project: 206

Completed project: 37

Total approved funding budget: 1 257 msek

The number of participants in approved projects: 849

Unique participants in approved projects: 447

May 2024

Aktuella utlysningar

Nedan listas öppna utlysningar. Du söker via Vinnovas webbplats.

Pågående utlysningar

[Validera forskning inom avancerad digitalisering i verklig miljö](#) – stänger 1 maj.

[Digital infrastruktur och kommunikation – våren 2024](#) – stänger 29 maj.

[Test och demo av avancerad digitalisering i verklig miljö](#) – stänger 27 aug

[Avancerad digitalisering för industrins elektrifiering](#) – stänger 13 september.

[Internationell individrörlighet för banbrytande teknik 2024](#) – stänger 15 november.

Five ongoing calls for proposals

Net Zero Industry

Mats Lundin, May 2024

Impact innovation

- Impact Innovation is the next generation's strategic innovation program.
- The Swedish Energy Agency, Formas and Vinnova stand behind the initiative. Innovation is an initiative of the Swedish Energy Agency, Formas and Vinnova.
- Five strategic programs are approved.

Mission:

The Mission of the programme is to achieve a Net Zero Industry by 2040.

The programme will achieve its mission by accelerating the development of the Swedish manufacturing industry towards zero emissions leveraging two core enablers, increased resource efficiency and resilience.

Latest updates

The first calls for proposals

Increased Resource Efficiency and Resilience, Step 1

- will open in May 2024

Policy and instruments for a sustainable transition

- in collaboration with Metals and Minerals
- will open in May 2024

Net Zero Industry System Demonstrators, Step 1

- Work in progress
- Planned to open in May 2024

Net Zero Industry

Net Zero Industry är ett forsknings- och innovationsprogram som i bred samverkan verkar för en klimatneutral tillverkningsindustri och produktutveckling.

Målet är att minska industrins koldioxidavtryck med upp till 75%.

MISSION

**Ensuring sustainable and resilient metals
and minerals supply for the societal
transition**

Metals & Minerals
impact innovation

Challenges

- Enough materials for a rapid transition
- Research system without gaps
- Relevant and sufficient competence supply
- Harmonised regulations and standards
- Social and political understanding
- Regional, national and international collaboration
